URLINUES AND PROPRIETORS.

MONDAY, JULY 22, 1878. REPUBLICAN CONGRESSIONAL CONVENTION.

The Convention of the Union Republican party of the First Congressional District of West Virginia will be held in the town of Moundsville, Marshall county, August 22d, 1878, for the purpose of nominating a candidate for Congress, and also for the transacting of such other business as may some before the Convention. The Union Republican party of the District is requested to appoint delegates to the Convention from the Counties comprising the District at such time and place as may soit the convenience of the people of the

By order of the Republican Executive Committee of the First Congressional District.

GEO. EDWARDS, Chairman.

The Soldiers' Re-Union at Newark, Ohlo, To-day.

The soldiers re-union at Newark to-day promises to be an extensive affair. Preparations on a large scale have been made for the entertainment of those who may be in attendance. The railroads carry passengers at excursion rates, and aside from the exercises, the distinguished vis-itors who will be present will be sufficient to attract a large attendance.

President Hayes, General Sherman and Attorney General Devens, will be present. The President will occupy rooms at the Lansing House, while General Sherman and suit have been assigned to the American. The Lansing House will be

Mr. G. W. Harper, the genial editor of

BACKETTE.—My friend of the INTELLIGENCER here objects to my insinuation that the mountains which surround this city are "rock bound and iron girted." He admits that there are immense beds of rock and coal covered by a soil of unsurpassed fertility, but contends that there is no iron; and attempts to prove it by the statement that if the mountains were iron girted, Wheeling would not be sending to far distant points for iron with which to feed its foundries, nail and tack factories, engine shops, rolling mills, &c. Now, as I was familiar with these mountains before my friend of the INTELLIGENCER was born, it must be conceiled that I have the age on him, and he must permit me to insist that they abound in iron ore—if the miner will go deep enough. But I understand why the fact is sought to be kept from the public that the mountains do contain iron, and the truth is simply this: There is a corner here in iron. The Wheeling people, industrions and shrewd business men as they are, are willing to use cheap iron from Pennsylvania, Lake Superior, Wisconsin and elsewhere, hoping to ree the supply speedily exhausted on those fields, when they will open up the mountains about Wheeling and supply the world for an indefinite period! You see what a splendid career thus awaits the city.

NTEAMER DAY AT NEW YORKS.

NTEAMER DAY AT NEW YORK. Falling Off in Freight-Freight

Nhipments of Grain, Cheese, &c. New York Builetin. Five ocean-steamers sailed for European ports Saturday, the cargoes being of the usual diversified character, but with a marked falling off in the aggregate amount. The exceptional hot weather of the past week has had not only a weakening influence on the export trade, but has also checked to a considerable extent the operations of the men engaged in loading the vessels. In fact, as one of the agents said, it was impossible to expect any one to work with a will in such a torrid atmosphere as has lately been experienced. The grain shipments to-day foot up to a total of 155,000 bushels, nearly half of which is taken by the National steamer. The same vessels has also of decidence of the same vessels has also on the experienced of the same vessels has also on the same vessels has also on the same vessels has also on the memory of our readers. These facts showed conclusively that now excellent the memory of our readers. These him the memory of our readers. The sub in which is with of the memory of our readers. These him the memory of our readers. These him the memory of our readers. The sub in which is worked on the continuous of the people and begging for a market while the people needed carpet, and woolen clothing. We head problem the well problem and woolen clothing. We head the people needed carpet, and woolen clothing. We head problem and problem seeing wool sell at a dollar a begging for a market while the people needed carpet, and woolen clothing. We head the people needed carpet, and woolen clothing. We head the people needed carpet, and woolen clothing. We head the people needed carpet, and woolen clothing. The seeing wool seging for an arket while the people needed carpet, and wo ly half of which is taken by the National steamer. The same vessel has also on board a consignment of 175 bales of domestic dry goods for the English market. The White Star takes out 30,000 boxes of theses, and the Anchor Line steamers have on board 54 horses and 115 head of cattle. The names and destinations of the steamers are the Germanic and Spain for Liverpool, Bolivia for Glasgow, Tyrian for Bristol and Oder for Bremen. The principal items composing the various cargoes are as follows:

Germanic, White Star Line: 30,000 boxes cheese, 3,000 boxes bacon, 70 tons leather, 140 hhds tobacco, 2,400 pkgs colfee, 2,700 cases canned goods, 290 tons fresh meat.

Spain, National Line: 62,000 bush grain, 37 bales cotton, 100 tes provisions, 459 boxes bacon, 15,000 boxes beese, 50 hhds tallow, 193 hhds and 96 to tobacco, 34 bbls fiour; 175 bales domestics, 299 pcs lumber, 176 pkgs mdse, 40 tons fresh meat.

Bolivia, Anchor Line: 40,000 bush constant and the surface of the County Court in

chees, 115 head cattle.
Order, North German Lloyd Line.
8,000 bush corn, 600 tes lard, 150 bbls
beef, 800 pkgs butter, 20 tons salt, 75 hay
rakes, 400 hhds and 500 cases tobacco, 500

rakes, 400 hids and 500 cases tobacco, 500 sides leather, 27 bales sarsaparilla, 50 tons sundries.

Shipping Beerftrom Wheeling to Fairmont West Virginin.

To be convinced that nearly everybody in this community has gone to drinking beer, one has only to go to the depot and watch the arrivals of the different trains. It comes by the case—two dozen bottler. As high as eleven cases have arrived here in one day. This, of course, is all used medicinally. Many husbands order it for the benefit of their wives' health. Mr. Niekke, of Wheeling, has no doubt thought ere this that our whole population is in a delicate state.

The Articulura Symmetry of the control of the Hon. John Hunson with the particular of the control of the Hon. John Hunson Good.

Moundayille Garste.

THE ATTACHMENT SYSTEM KILLED.—
Some weeks since we noted the decided stand taken by the Baltimore & Obio Railroad Company against the attachment system, stating that a test case would probably be tried at the next term of court. It is a neteworthy fact that no effort has since been made to lay an attachment against the wages of an employe of the railroad company, and it looks as though the system has been effectually killed without the matter getting into the courts.—Cumberland (Md.) Necs.

Moundaville Garste.

Hon. J. H. Good, of Ohio County, a stearing Democrata, a gentleman of worth was in our city resterday evening. Mr. Good has twice been a candidate before the moir of courter, from this District. Twice his claims have been favorably considered, though a fraction of a vote defeated him in the first attempt. Now he comes hough the system has been effectually skilled without the matter getting into the courts.—Cumberland (Md.) Necs.

NEW CUMBERLAND.

Business Prosperity-The Fire Brick Works, &c., &c. New Cumberland, W. Va., July 20.

e of the Intelli

Leaving Pairview in the United State rived at this place. The extreme heat prevents us from entering into business in a manner that would be more satisfactory. However, we are here and shall make the best of it. This is a good town, scattered somewhat, has some elegant residences in and about it, plenty of stores, and the different mechanical branches. prevents us from entering into business in a manner that would be more satisfactory. However, we are here and shall make the best of it. This is a good town, scattered somewhat, has some elegant residences in and about it, plenty of stores, and the different mechanical branches necessary for the existence and comfort of a town. John W. Thayer carries on a planing mill. The Wylie Bros. run a planing mill. The Wylie Bros. run a planing mill. The Wylie Bros. run a planing niety millions of brick per annum, consuming insety millions tons of clay in their manufacture, and employing two hundred and fifty hands. The brick are shipped to Pittsburgh, New Orleans, and intermediate points. The clay is found in the grand old hills adjoining, and is mitted and brought to the surface in the same manner as coal. There is also at the and terra cotta works located here. The M. E and M. P. Churches, Prespet terian and Disciples, have neat and tasty houses dedicated to the worship of God.

The Masonic and Odd Fellows societies are both well represented.

We were shown the first house ever built in New Cumberland—then Cuppytown—after the man who laid it out. It is a frame structure, and is yielding to the storms, soon it will be among the things of the past. We called upon Hon. John H. Atkinson, at his beautiful residence on the ridge below town, and were entertained by him in his usual hospitate and the countries of the public school building presents are both well represented.

Everymere we heard the INTELLIGENCE of the storms, soon it will be among the things of the past. We called upon Hon. John H. Atkinson, at his beautiful residence on the ridge below town, and were entertained by him in his usual hospitate and the countries of the public school building residence on the ridge below town, and were entertained by him in his usual hospitate of the public school building to the storms, soon it will be among the things of the past. We called upon Hon. John H. Atkinson, at his beautiful residence on the ridge below town, and were

headquarters for the Mexican veterans.

Sixteen hundred feet of tables have been temporarily erected at the Fair Grounds, from which will be served a free dinner to the veteran soldiers and sailors and the Ohio National Guard. The dinner is especially gotten up for them.

An elegant carriage has been secured for President Hayes, which will be handsomely and appropriately decorated and festooned for the occasion.

WE NEE IT NOW.

That is, Why the Iron Around Wheeling is Not Utilized for the Present.

Legant part of tables have been decided and the heartaches that would have been prevented would be beyond computation. All honor to Hancock; may she thus ever and souls. stand, and like him whose name she bears, write that decision of her citizens the Hinds County (Mirs.) Gazette, who is sojourning in our midst, thus ex- hand that all the world may read. All

sojourning in our midst, thus explains in his paper of the 17th his recent expressions in regard to the "iron girted" hills that surround Wheeling. We-saccept the explanation as altogether satisfactory:

WHEKLING, W. VA., July 8, 1878.
DEAR GAZETE—My friend of the Internation that the mountains which surround this city are "rock bound and iron girted." He admits that there are immense beds of rock and coal covered by a soil of unsurpassed fertility, but contends that used to be a soil of unsurpassed fertility, but contends that well.

as rung as one could wish, and is doing well.

Brown & Morrow, of the Independent, are comfortably located and are doing a satisfactory business.

Lient. Freeman, of the old 1st. W. Va. Vol. Inft., is Secretary of the Fire Brick Works Association. We are under obligations to him for favors shown.

Johnny Brown, formerly of Wellsburg, is boss pressum on the Independent.

Another well is being bored in "deep cut" for gas to be used in the manufacture of brick, Porter, Smith & Co., use the gas from the old well at their works.

Until we come again, &c. G. B. C.

Wool and Mutton.

American Agriculturalist.
Wool is low; and wool producers look
in vain for any hopeful sign of returning
high prices. Threatened changes in the
tartiff cause uncertainty; which inevitably acts unfavorably upon the production of an important staple like wool But with or without a tariff, we have no fear that wool can be profitably produ ted in this country. We have an enor-mous business in manufacturing wooler goods, which must be supplied with home goods, which must be supplied with though grown material. Not many months ago we gave some some facts in this regard which have been widely republished by other journals and which will still be fresh in the memory of our readers. Those facts showed conclusively that no

lumber, 176 pkgs mdse, 40 tons Iresh meat.

Bolivia, Anchor Line: 40,000 bush grain, 4,500 pkgs butter, 12,000 boxes cheese, 120 tons oil cake, 4 hhds and 32 test tobacco, 100 puncheons syrup, 54 horaes, 800 qes fresh meat.

Tyrian, Anchor Line: 21,000 bush wheat, 24,000 bush buckwheat, 80 boxes bacon, 720 cases canned meats, 700 boxes cheese, 115 head cattle.

Order, North German Lioyd Line, 8,000 bush corn, 600 tes lard, 150 bbls heef, 800 okes butter, 20 tons salt, 75 hay

BARNUM'S WINE CELLAR.

The Rev. Dr. Chapin Astonished by the Great Showman. rom the Evening Post.

Mr. P. T. Barnum, whose recent conver sations contained some autobiographical reminiscences on the subject of temperance, has spoken again on the same theme. One evening in 1847, in Saratoga, he said, he became somewhat influenced by pota-

were, without having been in p peril, would be to do him serious

Na reotics and Stimulants

Na rectics and Stimulants.

Some curious statistics as to the consumption of narcotics and stimulants by tile world in general are given in a late report of Mr. Jez. Killebrew, the Commissioner of Agriculture in Tennessee. Paraguay tea, it is computed, is used by 10,000,000 human beings, coca by 10,000,000 coon by 50,000,000, and coffee by 100,000,000. To 000,000, and coffee by 100,000,000, and those of opium in one or another form at 400,000,000. These figures are, however, eclipsed by the proportions of the demand for Chinese tea, which is said to be used by half a billion; while the consumers of tobacco are not/only still more widely distributed, but present the astonishing aggregate of 800,000,000. According to a careful estimate prepared for this report, tobacco is more generalized.

astonishing aggregate of 800,000,000. According to a careful estimate prepared for this report, tobacco is more generally used than any other single article of commerce consumed by man. The United States in 1860 produced more than 430,000,000 pounds of tobbacco, but ten years afterward the yield of the plantations had desindled to about 20,000,000. The report does not state the exact quantity grown in any subsequent year; but it seems that the exports alone in 1875 reached about 220,000,000 pounds, valued at more than \$25,000,000. According to the United States Bureau of Statistics, leaf tobacco valued at nearly \$20,000,000 was sent out of the country in the year ending June 30, 1877. These figures would make tobacco_rank sixth in the list of exported staples from the United States, cotton, breadstuffs, petroleum and the precious metals alone exceeding it in importance. In 1875 the best customer of the United States for tobacco was Germany, which, notwithstanding the large quantity grown in Prussia, took took 50,000,000 pounds, while Great Britain, which produces none, took only 53,000,000 pounds.

Ounold friend Samuel B. McColloch is candidate for re-election to the Clerkship of the Circuit Court of Ohio county. He has held the position for eight years, and makes a good and efficient officer. The people of that county would do well to re elect him, and not try the experiment of putting in a new man.—Tyler County Nor.

YOUNG.—'n Su day mering, July 21, 1878, at 8 o'clock, Mamaankr, wife of John Young, in the 6th year of her age. Funeral from the residence of her husband, one multi-back of Bridgepert. on Tuesday morning at 10 o'clock. Friends of the family are invited.
